

אגב' 30 vs 1/3 all day.

However;

.. אגב' 30 vs 1/3: why 1/3 is still advantageous. why? -
אגב' 30 → 1/6-1/3 is refunded/returned only all day; אגב' 30 - forever!

Answer: This high an overcharge is unusual and thus not a big advantage. And the disadvantage is that now we do not equate exactly 1/6 with < 1/6
אגב' 30 → i.e. exactly 1/6 is not refunded since but is like 1/6-1/3 → now they have all day to return/refund whereas אגב' 30 only.

FINAL SUMMARY: (אגב' 30 vs 1/3)

< 1/6	1/6 exactly	(not אגב' 30)	1/6 - 1/3	> 1/3
אגב' 30: מותר להחזיר רק אגב' 30	"אגב' 30" - option אגב' 30	void refund 1/6 (אגב' 30)	אגב' 30 or אגב' 30 void* forever אגב' 30	(same as 1/6-1/3) אגב' 30 or אגב' 30 void*
אגב' 30: מותר להחזיר רק אגב' 30	"אגב' 30" - all day all day return (like 1/6-1/3)	אגב' 30 אגב' 30	אגב' 30 option void not אגב' 30 refund 1/6-1/3 all day	אגב' 30 or אגב' 30 void* forever all day

(* (אגב' 30) the cheated one has first option → can maintain sale if wants to if doesn't try and get overcharge)
